

Elevate Desktop and Mobile Application Get Started Guide

Elevate Quick Start Guide

New to Elevate? Read this guide to learn the basics.

Channels

Communicate in real-time 1:1 or in teams using private and public channels

Search

Search for people in your organization

Messaging

Communicate in real-time with team chat and business SMS*

Video

Start a video conference, share your screen, and more

Manage Channels

Add members, search, favorite and more

Video Conferencing

View upcoming meetings, connect with teams and customers in HD video with screen sharing, annotation and more

Files

Access, share, and manage files in real-time

Voicemails

Manage and view voicemail transcriptions

Dialpad

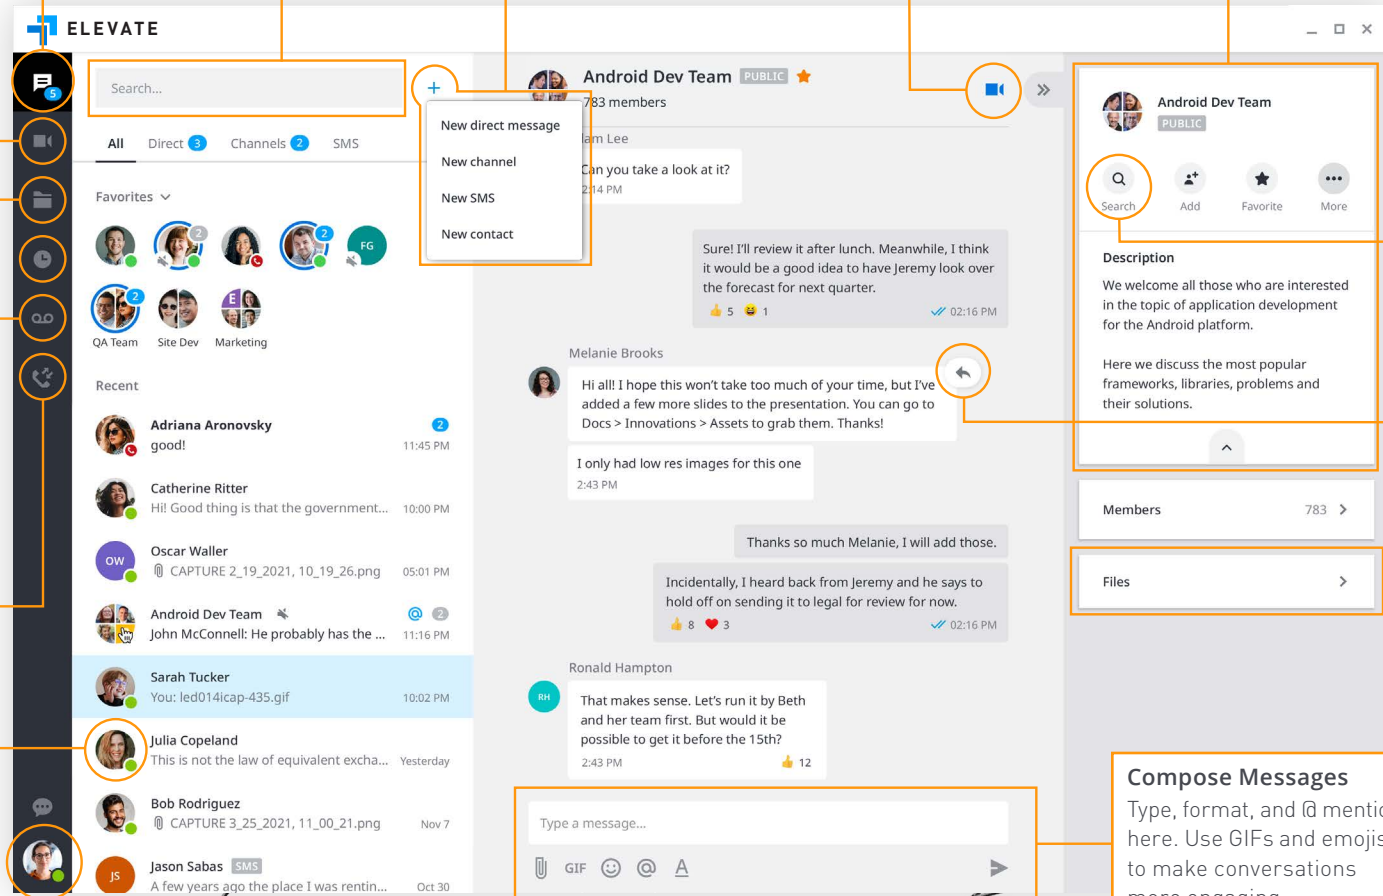

Access company directory at-a-glance, manage and place calls

Presence

View co-worker availability in real-time

Settings

Manage application settings, notifications, access integrations, and more

Chat Search

Search chat threads for relevant messages

Replies

Respond to a specific conversation

Files

Locate, preview and download files that have been shared in a chat

Compose Messages

Type, format, and @ mention here. Use GIFs and emojis to make conversations more engaging

Installation

Elevate makes it easier than ever for you to work from wherever. For the best experience, utilize Chrome or download the desktop and mobile applications.

Use Chrome

— OR —

Download Desktop App

Scan the QR code or download from the iOS or Android Store.

Sign In

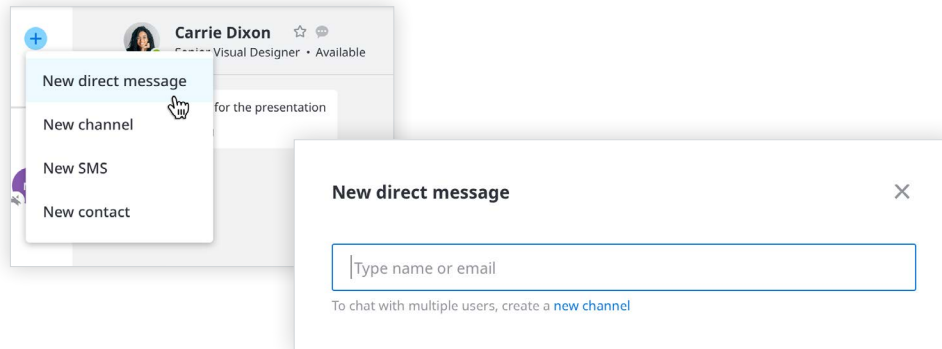

Log in to the desktop and mobile applications using your work email address and Elevate password.

Team Chat

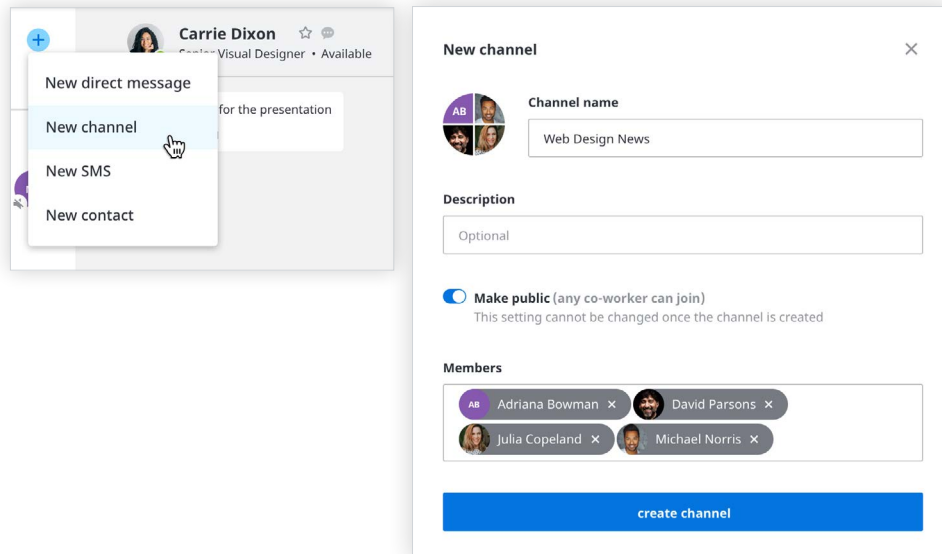

Start a chat

Connect with co-workers in real-time. Select **+** to **...create a new direct message**. A direct message is a chat with a single person. Type the name or email of the individual, write your message, select **➤**

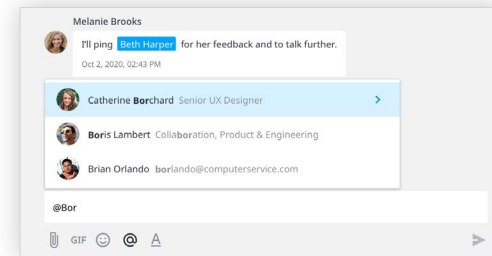

Create a new channel:

A channel is a group discussion—this can be dedicated to a department, specific project, etc. Type in Channel name, add a description, choose if you want the channel to be public or private, and add members.

Format your messages

Use the rich text editor to organize and format messages.

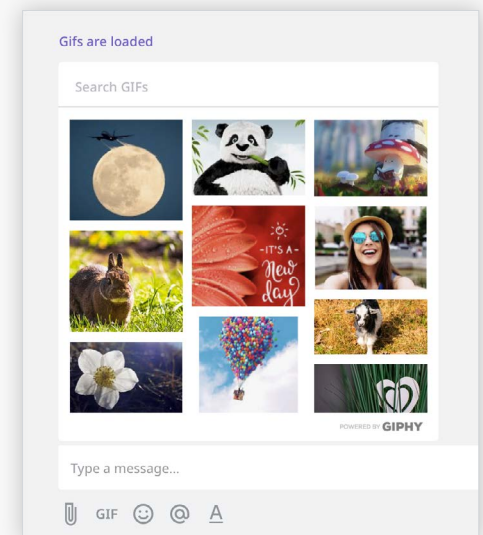

Use @ mentions

To get someone's attention in a channel, select @, then type their name or select them from a list that appears. You can @ mention multiple people at once.

Add emojis and GIFs to chat

Have fun with co-workers by adding emojis and GIFs to chats. Select the 😊 for emojis or GIF to add a GIF.

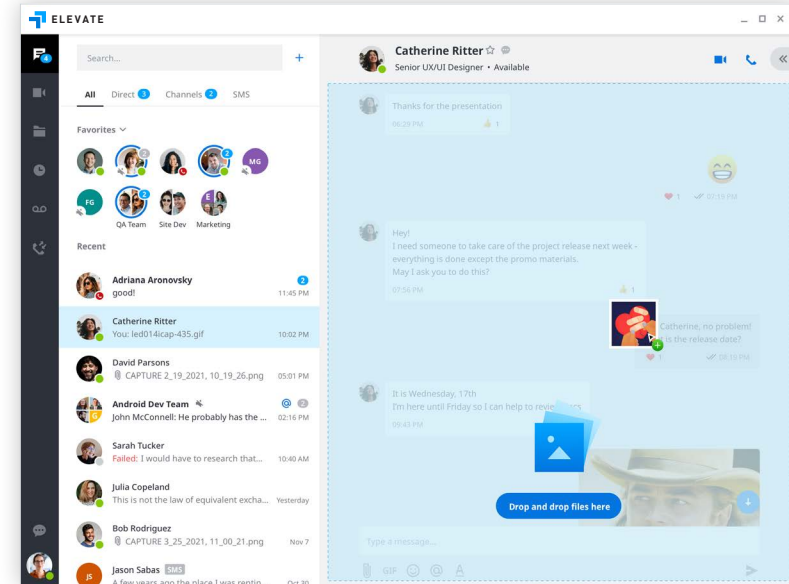

Team Chat

Easily share files to collaborate with colleagues in real-time.

From a direct chat or channel, select  to upload an attachment into your message

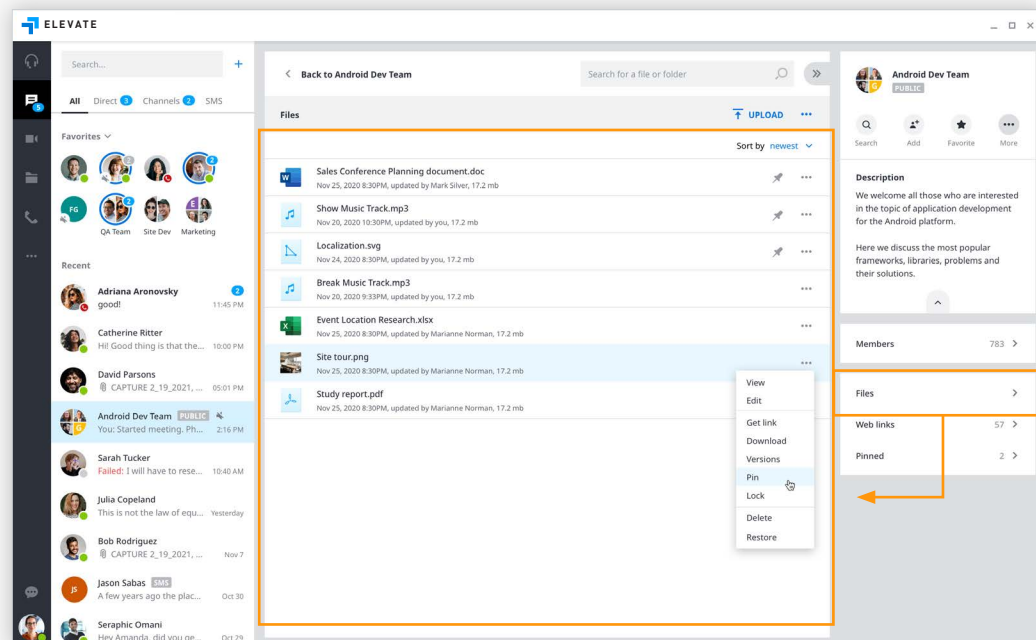

Drag and drop documents from your desktop directly into any message.

Filter files

Use the Files filter to locate, preview and download files that have been shared in a chat.

Video Conferencing

Meet face-to-face in HD video with anyone, from anywhere.

Scan the QR code or download from the iOS or Android Store.

View meeting participants, send chats, and more.

Lock meetings for an extra layer of security. No one will be able to enter your meeting without permission.

Access advanced, security settings, virtual backgrounds, and more.

The screenshot shows a Zoom meeting interface. At the top, there's a header with 'ONLINE MEETING' and 'ATTENDEES (4)'. Below this is a grid of four video thumbnails for participants: Eugene Samuels, You (Eugene S), Anita York, and Amanda Veracruz. A chat window on the left displays messages from Amanda Veracruz, Anita York, and Eugene Samuels. The main content area shows a presentation slide titled 'Business Process Review. Stock Chart' with a line graph showing stock performance from 2020 to Dec. The bottom toolbar includes icons for mute, video, chat, and reactions.

Use a headset and a high-quality camera for the best experience!

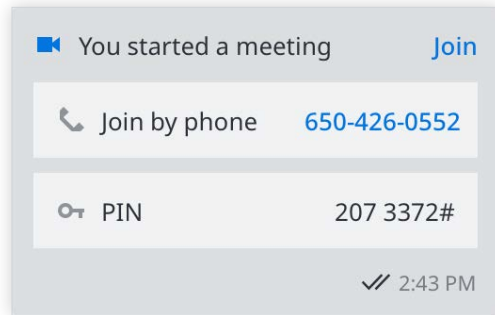

Mute/unmute, hop on camera, share your screen.

Video Conferencing*

Meet face-to-face in HD video with anyone, from anywhere.

Start a video conference

From a direct conversation or channel, select

From the meeting tab, you can:

Select "Start my meeting"
or join a meeting

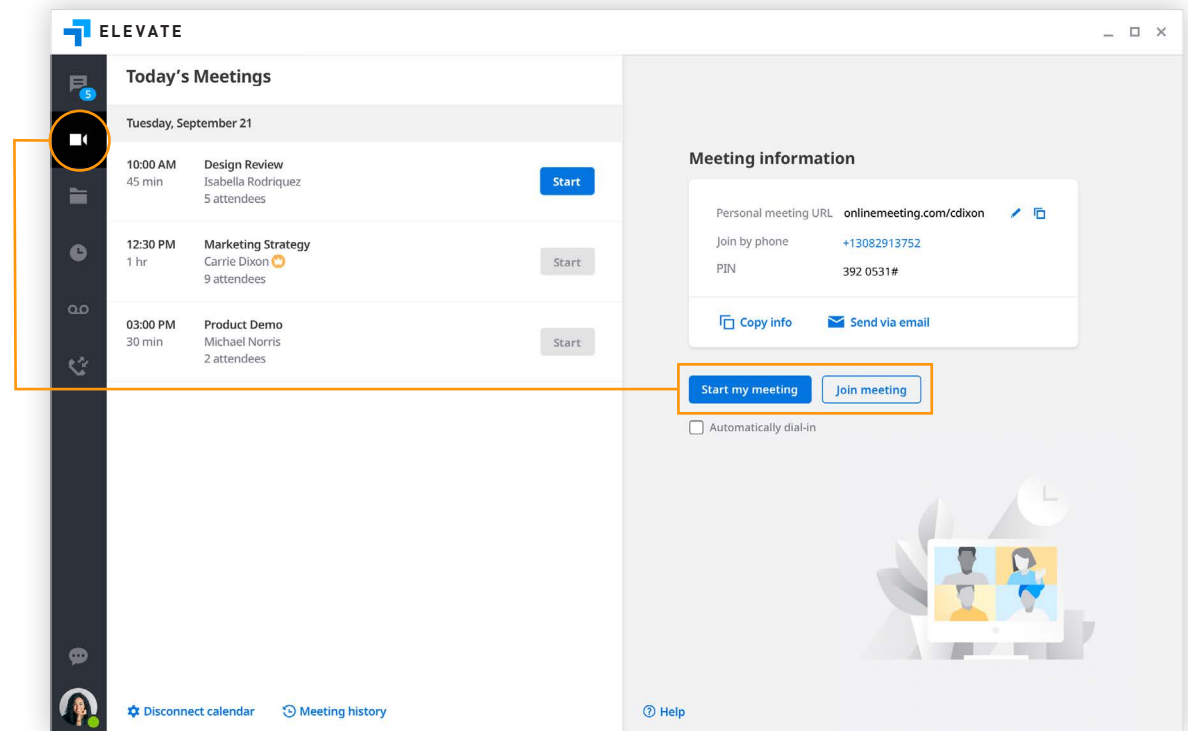

Integrate your Outlook or Google calendar so you can easily start and schedule meetings directly from your work calendar.

Your administrator will need to enable this. [Learn more here](#)

Download the [Elevate Chrome Extension](#) to start and schedule meetings from your Google calendar, and click-to-call from your Chrome browser.

*Available for Elevate Essentials, Elevate Pro and Elevate Enterprise Licenses only.

"Today's Meetings" will be visible with Elevate Calendar integration, which will be available in Q1 2022.

File Sharing*

For a better collaboration experience, use ShareSync to access, manage, store and share files safely and securely with anyone inside or outside your organization.

Download Desktop App

Scan the QR code or download from the iOS or Android Store.

The screenshot shows the ELEVATE ShareSync web interface. The top navigation bar includes the ELEVATE logo, the SHARESYNC logo, and tabs for 'Recents', 'Favorites', and 'My ShareSync'. A search bar is located on the right. Below the navigation, the current view is 'My ShareSync > Documents'. Action buttons include 'UPLOAD', 'CREATE FOLDER', and 'SHOW DELETED'. A list of folders is displayed, including 'Backup feature launch', 'Buying Criteria', 'Content base campaign', 'Emails', 'Files', and 'V1'. Callouts point to various features: 'View recent files' points to the 'Recents' tab; 'Access Favorite files and folders' points to the 'Favorites' tab; 'Upload, organize and store files' points to the 'UPLOAD' button; 'Access, share and manage files' points to the sidebar icon; and a star icon on the 'Backup feature launch' folder is also highlighted.

*Available for Elevate Pro and Enterprise licenses only.

Calling

Place, receive and manage calls in two ways:

- **Softphone mode:** Use computer speakers and microphone for calls (can use Bluetooth headset or headphones)
- **Call Controller mode:** Use hardware (desk phone) for calls

Application mode	
<input checked="" type="radio"/> Softphone	Telephone calls made over the Internet use a computer, rather than dedicated hardware
<input type="radio"/> Call Controller	Telephone calls made over the Internet use a hardware phone

Calling features vary based on calling mode.

FEATURE/ APP MODE	PLACE A CALL	RECEIVE A CALL	3-WAY CALLING	MUTE/ UNMUTE	HOLD	DTMF	CALL FLIP	CALL PARK	TRANSFER	END CALL
Call Controller	●	Desk Phone		Desk Phone	Desk Phone	Desk Phone	●	●	●	●
Softphone	●	●	●	●	●	●	●	●	●	●

Place calls and view contacts

Place calls to internal and external contacts, search and view company contacts at-a-glance, and switch between pre-defined filters to manage calls.

Place calls from chat

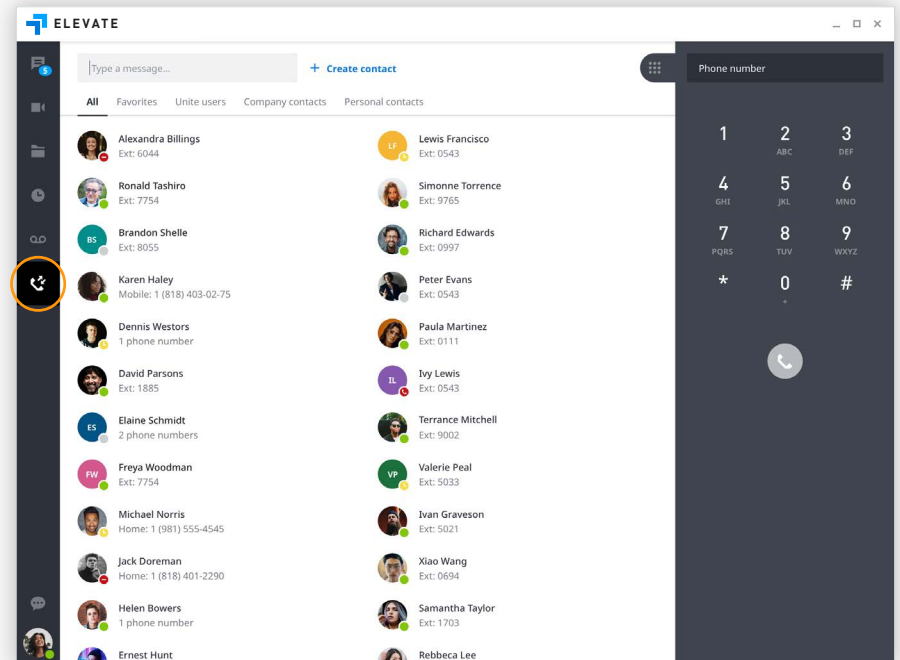

Select  to call someone from a 1:1 chat or from a contact card
